LSPDFR is a mod for GTA 5, its contains easily updated, intuitive control panel, files and custom missions. You can see the content of LSPDFR file. You can see the content of LSPDFR file. There's a custom FFT engine instead of the original one, when you shoot bullets it's very speed up, and you can activate bullet time when you press the F key. After you've done shooting, you can see the damage you did, so you don't need to be completely sure where you're aiming. AND! You can make your own custom missions and missions. LSPDFR also has a built-in auto-leveling system that makes your character more versatile. Thanks to the Auto Leveling System, your character will get a lot of experience points, that will make him/her with more HP, MP, and Ammo. Have fun! You have the option to toggle HUD on/off. GTA5 LSPDFR activation is very easy, all you have to do is activate the mod, log in the game with your account (you can create it now) and play. LSPDFR and Rage Plugin are available for download with this mod. **YOU CAN NOW GET IT ON STEAM!** I'm working on a way of getting LSPDFR on Steam in the near future, i will notify Steam then so keep watching the updates, you will get it on Steam once i have gotten it on Steam, LSPDFR 0.3
